Harrow.

19/2/11.

Dear Jean,

Don't forget to bring
those photos with you when you
come.

If you travel by the 10 AM on
Tuesday you will have the
pleasure of Sir A's & Lady C's
& Miss Lucy's company. How nice
for you. I should come on Wed-
nesday if I was you.

I was not in the "Daily Graphic"
after all.

Frightful excitement here yesterday
afternoon. Lot of Hand-ditch

murders.

Two new men were playing the
ass with a knife and one
stuck it into himself like
a fool. It went in fairly deep
and was not very far from
his heart. He is getting better
and there is no danger. It served
him right he was always fooling
with it. ~~He~~ It was lucky
he did not stick it into some
one else.

We have got one case of
the Plague (or Diphtheria) in
spite of Ford's swabbing.
It is a Home border again
please send me a cake
with some almond icing on it.

mother thinks a lot of my
appetite if I can manage a
chicken & 12 eggs at once.

I never asked for both I asked
for one or the other.

ever your loving brother
Yours,
